EDUCATION

Vellore Institute of Technology (VIT), Vellore CGPA: 9.26 | Completed 4 Semesters

B. Tech. in Computer Science & Engineering (Artificial Intelligence & Machine Learning)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Computer Architecture, Theory of Computing, Web Programming, Linear Algebra, Calculus, Probability & Statistics.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, HTML5, CSS3

Machine Learning: Scikit-learn, TensorFlow, NumPy, Pandas, Matplotlib, XGBoost

Software Engineering: Data Structures & Algorithms, OOP, Feature Engineering, REST APIs, Git, GitHub, FastAPI, Model Deployment

Cloud: AWS

Tools: VS Code, Jupyter Notebook, Google Colab

EXPERIENCE

AI/ML Summer Intern | Carbonetics Carbon Capture Pvt Limited, Delhi Summer 2026

- Designed and developed end-to-end applied machine learning pipelines for industrial carbon capture analytics and process optimization.
- Conducted exploratory data analysis (EDA), data cleaning, missing-value imputation, preprocessing, and domain-driven feature engineering on structured datasets.
- Trained, benchmarked, and evaluated supervised regression and classification models using Scikit-learn and XGBoost.
- Performed systematic hyperparameter tuning and cross-validation, serialized trained models with Joblib, and deployed REST inference endpoints using FastAPI.
- Collaborated using Git and GitHub for version control, reproducible experiment tracking, and structured code reviews.

PROJECTS

Machine Learning Regression Models Project: Built and evaluated end-to-end regression pipelines in Python and Scikit-learn with feature engineering, cross-validation, and comparative error analysis.

Browser-based Inventory Management System: Engineered a client-side inventory tracking web application using HTML5, CSS3, and JavaScript featuring CRUD workflows, CSV/JSON import/export, and audit logging.

Personal Portfolio Website: Designed and built a responsive, accessible editorial engineering portfolio (vihaanvarshney.com) with semantic HTML5, CSS3, Vanilla JavaScript, light/dark theming, and zero-reload filtering.

CERTIFICATIONS

- **Credly Digital Badges (3) [2026]:** AWS Academy Graduate — Cloud Architecting, Generative AI Foundations, and Machine Learning for Natural Language Processing.
- **NPTEL [2026]:** Human Computer Interaction (IIIT Delhi).
- **Udemy [2026]:** Machine Learning A-Z: ML, DL, AI with AWS, Python & R.
- **HarvardX CS50P [2024]:** Introduction to Programming with Python.
